19th October 2021

Morena Wesley whanau

As you will be aware, we remain at level 3 for another 2 weeks and therefore the school remains closed. Please be assured that we are doing all we can to maintain continuity for all of our students and their learning. We realise our leaving students in year 13 and the year 12s may find things particularly stressful as they chase their learning goals for this year. Therefore we have reached out to all year 12s and 13s with a google form to check in terms of their wellbeing and to help make an individualised learning plan for the remainder of the year. What we would like to achieve is targeted assessment so students focus on exactly what mahi needs to be done to get them where they want to be next year.

Practice exams were originally scheduled for next week. These will not take place in the format as we hoped and so will shift online over the coming weeks. Teachers will assess students remotely so they should continue to prepare for their exams as normal.

A reminder that all students need to be checking google classroom and their email for notifications every morning for updates. Any queries or questions about the overall learning for a student should be directed to the students' learning coach or dean.

Warm regards,

Christopher Wood

Deputy Principal
