

Covid Positive Case – Sunday 13 February 2022

Kia Ora

My apologies for the interruption to your weekend but the health and wellbeing of our children, staff and community is a top priority.

You may have heard there's a confirmed COVID-19 case in our community.

What we're doing:

- We have already contacted the Close Contacts of the confirmed Case therefore if you have heard nothing assume you are not considered a close contact by the Ministry of Health

What you need to do if you are contacted as a close contact:

- get tested and self-isolate until you receive the result

The good thing for this case is day ten is tomorrow, Sunday, therefore, if you test negative there is no need to self-isolate or retest, your children can return to school immediately.

The quick actions of staff meant we got on top of this very fast.

Ngā mihi nui
